

Before you begin

Winnie is made by first knitting the back legs, which are worked into the body. The head is knitted separately and stitched in place, along with the front legs. Ears, collar and patch of fluff are added last, along with face details. Leave 30cm tails on all pieces to allow for easy stitching up.

LEGS

All four legs follow the same starting rows, starting at the paw.

Cast on 8 stitches in colour one.

1. Knit row
2. Increase into every stitch (16 stitches)

MAKING UP

Front legs Stitch the legs a few stitches apart just before the body turns into the chest.

Head Stitch up head and stuff. Stitch onto the top side of the body.

Ears Position the ears at slight angles on the top of the head. Play with their position to give your dog character.

Neck and chest fluff The cast-on edge sits under the dog's chin, with the thinner part fitting through the front legs. Try using long and short stitches to blend the fluff into the body.

Tail Stitch in half and catch one end to the corner of the dog's rear.

Collar If using, it can be tied or stitched to the neck.

Extra details Add a nose and eyes using long stitches. Surface stitches can be used to add patterns to the body. Make small double knots and trim to 5mm for extra fluff.

Download this tag from MY WI, punch a hole in it and tie onto the collar.
